What are the key risks that are specific to the Issuer?

Risk exposure to debt securities issued by sovereign States

The market tensions regarding government bonds and their volatility, as well as Italy's rating downgrading or the forecast that such downgrading may occur, might have negative effects on the assets, the economic and/or financial situation, the operational results and the perspectives of the Bank. Intesa Sanpaolo Group results is and will be exposed to sovereign debtors, in particular to Italy and certain major European Countries.

Risks related to legal proceedings

The risk arising from legal proceedings consists of the possibility of the Bank being obliged to pay any sum in case of unfavourable outcome.

Risks related to the economic/financial crisis and the impact of current uncertainties of the macro-economic context

The future development in the macro-economic context may be considered as a risk as it may produce negative effects and trends in the economic and financial situation of the Bank and/or the Group. Any negative variations of the factors that affect the macro-economic framework, in particular during periods of economic-financial crisis, could lead the Bank and/or the Group to suffer losses, increases of financing costs, and reductions of the value of the assets held, with a potential negative impact on the liquidity of the Bank and/or the Group and its financial soundness.

Credit risk

The economic and financial activity and soundness of the Bank depend on its borrower's creditworthiness. The Bank is exposed to the traditional risks related to credit activity. Therefore, the clients' breach of the agreements entered into and of their underlying obligations, or any lack of information or incorrect information provided by them as to their respective financial and credit position, could have negative effects on the economic and/or financial situation of the Bank.

Market risk

The market risk is the risk of losses in the value of financial instruments, including the securities of sovereign States held by the Bank, due to the movements of market variables (by way of example and without limitation, interest rates, prices of securities, exchange rates), which could determine a deterioration of the financial soundness of the Bank and/or the Group. Such deterioration could be produced either by negative effects on the income statement deriving from positions held for trading purposes, or from negative changes in the FVOCI (Fair Value through Other Comprehensive Income) reserve, generated by positions classified as financial Activities evaluated at fair value, with an impact on the overall profitability.

Liquidity risk

The liquidity risk is the risk that the Bank is not able to satisfy its payment obligations at maturity, both due to the inability to raise funds on the market (funding liquidity risk) and of the difficulty to disinvest its own assets (market liquidity risk).

Operational risk

The Bank is exposed to several categories of operational risk which are intrinsic to its business, among which those mentioned herein, by way of example and without limitation: frauds by external persons, frauds or losses arising from the unfaithfulness of the employees and/or breach of control procedures, operational errors, defects or malfunctions of computer or telecommunication systems, computer virus attacks, default of suppliers with respect to their contractual obligations, terrorist attacks and natural disasters. The occurrence of one or more of said risks may have significant negative effects on the business, the operational results and the economic and financial situation of the Bank.

Regulatory framework

The Bank is subject to a complex and strict regulation, as well as to the supervisory activity performed by the relevant institutions (in particular, the European Central Bank, the Bank of Italy and CONSOB). Both the aforementioned regulation and supervisory activity are subject, respectively, to continuous updates and practice developments. Furthermore, as a listed Bank, the Bank is required to comply with further provisions issued by CONSOB. The Bank, besides the supranational and national rules and the primary or regulatory rules of the financial and banking sector, is also subject to specific Rules on anti-money laundering, usury and consumer protection. Although the Bank undertakes to comply with the set of rules and regulations, any changes of the rules and/or changes of the interpretation and/or implementation of the same by the competent authorities could give rise to new burdens and obligations for the Bank, with possible negative impacts on the operational results and the economic and financial situation of the Bank.

Section 3 – Key information on the Securities

Type, class and ISIN

The Securities are Certificates. The Securities are issued in Italian dematerialized form ("**Italian Dematerialized Securities**"). The Certificates are cash settled.
The ISIN of the Certificates is specified for each Series in the "Annex to the Final Terms and to the Summary" below.

Currency, denomination, and term of the securities

The issue price of the Certificates is equal to EUR 100 (the "**Issue Price**").
The Securities are issued in EUR (the "**Issue Currency**").
The Settlement Currency is EUR.
Each Certificate shall be automatically exercised on the Exercise Date. The Exercise Date and Settlement Date are 30 November 2022.

Rights attached to the securities

The Certificates and any non-contractual obligations arising out of or in connection with the Certificates will be governed by, and shall be construed in accordance with, English Law. The registration and transfer of the Securities in Monte Titoli shall be governed by, and shall be construed in accordance with, Italian law.

The Certificates entitle its holder to receive from the Issuer the following amounts.

REMUNERATION AMOUNTS

The Certificates provide for the following remuneration amounts.

DIGITAL AMOUNT

The Certificates provide for the payment of the Digital Amount upon occurrence of the Digital Event.
The Digital Event will occur if the Reference Value of the relevant Underlying on the Digital Valuation Period is higher than or equal to the relevant Digital Level.

The Digital Valuation Period is 28 November 2022.

The Digital Level is equal to the level specified for each Series in the "Annex to the Final Terms and to the Summary" (the "**Digital Level**").

The Digital Amount is equal to the amount specified for each Series in the "Annex to the Final Terms and to the Summary".

PLUS AMOUNTS

The Certificates provide for the unconditional payment of the Plus Amounts that are not linked to the performance of the Underlying. The Plus Amounts are equal to the amount specified for each Series in the "Annex to the Final Terms and to the Summary" and will be paid on the following dates: 30 December 2021, 31 January 2022, 28 February 2022, 30 March 2022, 29 April 2022, 30 May 2022, 30 June 2022, 29 July 2022, 30 August 2022, 30 September 2022 and 31 October 2022 (the "**Plus Payment Dates**").

CASH SETTLEMENT AMOUNT

The Securityholder will receive on the Settlement Date for each Minimum Exercise Amount, the payment of the Cash Settlement Amount (if positive) determined as follows.

STANDARD LONG CERTIFICATES

CALCULATION METHOD IN THE CASE OF POSITIVE AND NEGATIVE PERFORMANCE OF THE UNDERLYING (BARRIER EVENT NOT OCCURRED)

The investor will receive an amount linked to a percentage of the Initial Reference Value, equal to 100% in relation to each Series (the "**Initial Percentage**").

CALCULATION METHOD IN THE CASE OF NEGATIVE PERFORMANCE OF THE UNDERLYING – (BARRIER EVENT OCCURRED)

The Barrier Event will occur if on the Valuation Date, the Final Reference Value of the relevant Underlying is lower than the Barrier Level equal to the level specified for each Series in the "Annex to the Final Terms and to the Summary" below.

If a Barrier Event has occurred, the Cash Settlement Amount will be linked to the performance of the relevant Underlying (i.e. the investment in the Certificate is a direct investment in the Underlying) and therefore will be exposed to the partial or total loss of the capital invested.

For the purposes of the above the following applies:

For the purposes of the determination of the Barrier Event, the Reference Value will be the Final Reference Value of the relevant Underlying.

For the purposes of the determination of the Digital Event, the Reference Value will be calculated on the Digital Valuation Period and will be equal to:

- the closing price of the relevant Share in relation to the Series that do not specify Euronext Milan of Borsa Italiana S.p.A. as Exchange in the "Annex to the Final Terms and to the Summary" below; and
- the reference price of the relevant Share in relation to the Series that specify Euronext Milan of Borsa Italiana S.p.A. as Exchange in the "Annex to the Final Terms and to the Summary" below;

on such date.

The Initial Reference Value has been calculated on 30 November 2021 (the "**Determination Date**") and is equal to:

- the closing price of the relevant Share in relation to the Series that do not specify Euronext Milan of Borsa Italiana S.p.A. as Exchange in the "Annex to the Final Terms and to the Summary" below; and
- the reference price of the relevant Share in relation to the Series that specify Euronext Milan of Borsa Italiana S.p.A. as Exchange in the "Annex to the Final Terms and to the Summary" below;

on such date.

In relation to each Series, the Initial Reference Value is set out in the "Annex to the Final Terms and to the Summary" below.

The Final Reference Value will be calculated on 28 November 2022 (the "**Valuation Date**") and will be equal to:

- the closing price of the relevant Share in relation to the Series that do not specify Euronext Milan of Borsa Italiana S.p.A. as Exchange in the "Annex to the Final Terms and to the Summary" below; and
- the reference price of the relevant Share in relation to the Series that specify Euronext Milan of Borsa Italiana S.p.A. as Exchange in the "Annex to the Final Terms and to the Summary" below;

on such date.

The Underlyings are the Shares specified for each Series in the "Annex to the Final Terms and to the Summary" below.

In respect of the Underlyings, certain historical information (including past performance thereof) may be found on major information providers, such as Bloomberg and Reuters, and on the website of the relevant issuer. The relevant Bloomberg Code is specified for each Series in the "Annex to the Final Terms and to the Summary" below and the website of the relevant issuer is specified in the table below.

Seniority of the securities

The Certificates constitute direct, unsubordinated, unconditional and unsecured obligations of the Issuer and, unless provided otherwise by law, rank *pari passu* among themselves and (save for certain obligations required to be preferred by law) rank equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer from time to time outstanding.

Restrictions on the free transferability

The Securities will be freely transferable, subject to the offering and selling restrictions in the United States, the European Economic Area under the Prospectus Regulation and the laws of any jurisdiction in which the relevant Securities are offered or sold.

Where will the securities be traded?

Application has been made for the Securities to be admitted to trading on the regulated market of the Vienna Stock Exchange with effect from the Issue Date or a date around the Issue Date.

Application has also been made for the Securities to be admitted to trading on the Italian multilateral trading facility Securitised Derivatives Market (the "**SeDeX**"), organised and managed by Borsa Italiana S.p.A., which is not a regulated market for the purposes of Directive 2014/65/EU as amended, with effect from the Issue Date or a date around the Issue Date.

After the Issue Date, application may be made to list the Securities on other stock exchanges or regulated markets or to admit to trading on other trading venues as the Issuer may decide.

What are the key risks that are specific to the securities?

The Certificates may not be a suitable investment for all investors

Certificates are complex financial instruments. A potential investor should not invest in Certificates which are complex financial instruments unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Certificates will perform under changing conditions, the resulting effects on the value of the Certificates and the impact this investment will have on the potential investor's overall investment portfolio.

General risks and risks relating to the Underlying

The Securities involve a high degree of risk, which may include, among others, interest rate, foreign exchange, time value and political risks. Purchasers should be prepared to sustain a partial or total loss of the purchase price of their Securities. Fluctuations in the value of the relevant Underlying will affect the value of the Securities. Purchasers of Securities risk losing their entire investment if the value of the relevant underlying basis of reference does not move in the anticipated direction.

Certain considerations associated with Share Securities

In the case of Securities relating to a share or to a GDR/ADR (or basket of shares or basket of GDRs/ADRs), no issuer of such shares will have participated in the preparation of the relevant Final Terms or in establishing the terms of the Securities and neither the Issuer nor any Manager will make any investigation or enquiry in connection with such offering with respect to any information concerning any such issuer of shares contained in such Final Terms or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant issue date that would affect the trading price of the shares will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of shares could affect the trading price of the shares and therefore the trading price of the Securities. Securityholders will not have voting rights or rights to receive dividends or distributions or any other rights with respect to the relevant shares to which such Securities relate.

Loss risk in relation to the investment

The investor shall consider that, in relation to its investment, there is a risk of loss of the capital invested depending on the performance of the underlying asset. In particular, in the event a Barrier Event has occurred, a loss will occur in respect of the capital invested. If the Final Reference Value of the underlying asset is equal to zero, the investor might suffer a total loss of the capital. Moreover, if prior to the exercise the investor decides to terminate the investment in the Certificates, the investor might be subject to the loss of the value of the Certificate and, therefore, might be subject to the total or partial loss of the investment.

Risk related to the Barrier Event

If a Barrier Event occurs, the Cash Settlement Amount will be determined in accordance with a calculation method other than the calculation method applicable if the Barrier Event does not occur and such circumstance may have a negative influence on the price. This may entail the risk of partial or total loss of the investment.

Risk related to the Digital Level

In relation to the Certificates, the Issuer has set, at its own discretion, the Digital Level. The higher the Digital Level is set in respect

of the Initial Reference Value, the greater the possibility that the Digital Event will not occur and therefore that the relevant Digital Amount will not be paid.

Possible illiquidity of the Securities in the secondary market

It is not possible to predict the price at which Securities will trade in the secondary market or whether such market will be liquid or illiquid. The Issuer, or any of its Affiliates may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private treaty. Any Securities so purchased may be held or resold or surrendered for cancellation. The Issuer or any of its Affiliates may, but is not obliged to, be a market-maker for an issue of Securities. Even if the Issuer or such other entity is a market-maker for an issue of Securities, the secondary market for such Securities may be limited. To the extent that an issue of Securities becomes illiquid, an investor may have to wait until the Exercise Date to realise value.

Section 4 – Key information on the offer of securities to the public

Under which conditions and timetable can I invest in this security?

Not applicable - the Securities are not being offered to the public as part of a public offer.

Who is the offeror?

Not applicable - the Securities are not being offered to the public as part of a public offer.

Reasons for the offer and estimated net amount of the proceeds

Not applicable - the Securities are not being offered to the public as part of a public offer.

Indication of whether the offer is subject to an underwriting agreement on a firm commitment basis

Not applicable - the Securities are not being offered to the public as part of a public offer.
