PART B – OTHER INFORMATION

1. LISTING AND ADMISSION TO TRADING

- (i) Listing: None.
- (ii) Admission to trading: Application will be made for the Securities to be admitted to trading on the Italian multilateral trading facility EuroTLX, organised and managed by Borsa Italiana S.p.A., which is not a regulated market for the purposes of Directive 2014/65/EU as amended, with effect from the Issue Date or a date around the Issue Date.

After the Issue Date, application may be made to list the Securities on other stock exchanges or regulated markets or to admit to trading on other trading venues as the Issuer may decide.

2. NOTIFICATION

Not applicable.

3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE

The Issuer may enter into hedging arrangements with market counterparties in connection with the issue of the Securities in order to hedge its exposure.

The Issuer will act as Calculation Agent under the Securities. See the risk factor "*Potential Conflicts of Interest*" of the Base Prospectus.

In addition, the Issuer may act as liquidity provider (as defined under the rules of the relevant market, as amended from time to time) in respect of the Securities.

Save as discussed above and save for any commission payable to the Manager and costs payable to the Issuer referred to in item 111 of Part A above, so far as the Issuer is aware, no person involved in the issue of the Securities has an interest material to the Offer.

4. REASONS FOR THE OFFER, ESTIMATED NET PROCEEDS AND TOTAL EXPENSES

- (i) Reasons for the offer: See "Use of Proceeds" wording in Base Prospectus.
- (ii) Estimated net proceeds: The net proceeds (resulting from subtracting the commissions and the costs referred to in item 111 of Part A, from the aggregate Issue Price paid by the Securityholders) of the issue of the Securities will be equal to EUR 19,290,000² (assuming placement commissions referred to in item 111 of Part A above will be 3.00 per cent. of the Issue Price in respect of all Securities placed).
- (iii) Estimated total expenses: Not applicable

What are the key risks that are specific to the Issuer?

Risk exposure to debt securities issued by sovereign States

The market tensions regarding government bonds and their volatility, as well as Italy's rating downgrading or the forecast that such downgrading may occur, might have negative effects on the assets, the economic and/or financial situation, the operational results and the perspectives of the Bank. Intesa Sanpaolo Group results are and will be exposed to sovereign debtors, in particular to the Republic of Italy and certain major European Countries.

⁸ Securities issued not accounted for as subordinated debt.

⁹ After deducting from capital 2 billion euro of buyback authorised by the ECB and launched on 2 June 2025, subject to the approval from the Shareholders' Meeting on 29 April 2025.

¹⁰ Calculated according to Regulation (EU) 2024/1623 (CRR3) which transposes the principles of Basel 4 into European law, entered into force from 1 January 2025. The first-time adoption of Basel 4 generated an impact of slightly more than 40 basis points on the CET 1 ratio

¹¹ Countercyclical Capital Buffer calculated taking into account the exposure as at 31 March 2025 in the various countries where the Group has a presence, as well as the respective requirements set by the competent national authorities and relating to 2026, where available, or the most recent update of the reference period (requirement was set at zero per cent in Italy for 2024 and the first half of 2025).

Risks related to legal proceedings

The breakdown according to the main categories of disputes with likely risk shows the prevalence of cases related to the Intesa Sanpaolo Group's ordinary banking and credit activities, involving claims relating to banking and investment products and services or on credit positions and revocatory actions. The remaining disputes mainly consist of other civil and administrative proceedings and labour disputes or criminal proceedings or proceedings related to operational violations.

Risks related to the economic/financial crisis and the impact of current uncertainties of the macro-economic context

The future development in the macro-economic context may be considered as a risk as it may produce negative effects and trends in the economic and financial situation of the Bank and/or the Intesa Sanpaolo Group. Any negative variations of the factors that affect the macro-economic framework, in particular during periods of economic-financial crisis, could lead the Bank and/or the Intesa Sanpaolo Group to suffer losses, increases of financing costs, and reductions of the value of the assets held, with a potentially negative impact on the liquidity of the Bank and/or the Intesa Sanpaolo Group and its financial soundness.

Credit risk

The economic and financial activity and soundness of the Bank depend on its borrower's creditworthiness. The Bank is exposed to the traditional risks related to credit activity. Therefore, the clients' breach of the agreements entered into and of their underlying obligations, or any lack of information or incorrect information provided by them as to their respective financial and credit position, could have negative effects on the economic and/or financial situation of the Bank.

Market risk

The market risk is the risk of losses in the value of financial instruments, including the securities of sovereign States held by the Bank, due to the movements of market variables (by way of example and without limitation, interest rates, prices of securities, exchange rates), which could determine a deterioration of the financial soundness of the Bank and/or the Intesa Sanpaolo Group. Such deterioration could be produced either by negative effects on the income statement deriving from positions held for trading purposes, or from negative changes in the FVOCI (Fair Value through Other Comprehensive Income) reserve, generated by positions classified as financial activities evaluated at fair value, with an impact on the overall profitability.

Liquidity risk of Intesa Sanpaolo

Although the Bank constantly monitors its own liquidity risk, any negative development of the market situation and the general economic context and/or creditworthiness of the Bank, may have negative effects on the activities and the economic and/or financial situation of the Bank and the Intesa Sanpaolo Group. In light of the findings set forth in the EBA third report on LCR and NSFR monitoring¹², the Issuer remains attentive to the evolution of the funding market to ensure that its ordinary refinancing strategies and normal business are not affected by the cumulative effect of the maturity of all the remaining central bank funding and additional outflows due to the impact of adverse market liquidity scenarios. The liquidity risk is the risk that the Bank is not able to satisfy its payment obligations at maturity, both due to the inability to raise funds on the market (funding liquidity risk) and of the difficulty to disinvest its own assets (market liquidity risk).

Operational risk

The Bank is exposed to several categories of operational risk which are intrinsic to its business, among which are those mentioned herein, by way of example and without limitation: frauds by external persons, frauds or losses arising from the unfaithfulness of the employees and/or breach of control procedures, operational errors, defects or malfunctions of computer or telecommunication systems, computer virus attacks, default of suppliers with respect to their contractual obligations, terrorist attacks and natural disasters. The occurrence of one or more of said risks may have significant negative effects on the business, the operational results and the economic and financial situation of the Bank.

Risk related to the development of the banking sector regulation and the changes in the regulation on the solution of banking crises

The Bank is subject to a complex and strict regulation, as well as to the supervisory activity performed by the relevant institutions (in particular, the ECB, the Bank of Italy and CONSOB). Both the aforementioned regulation and supervisory activity are subject, respectively, to continuous updates and practice developments. Furthermore, as a listed Bank, the Bank is required to comply with further provisions issued by CONSOB. The Bank, besides the supranational and national rules and the primary or regulatory rules of the financial and banking sector, is also subject to specific rules on anti-money laundering, usury and consumer protection. Although the Bank undertakes to comply with the set of rules and regulations, any changes of the rules and/or changes of the interpretation and/or implementation of the same by the competent authorities could give rise to new burdens and obligations for the Bank, with possible negative impacts on the operational results and the economic and financial situation of the Bank.

CASH SETTLEMENT AMOUNT

The Securityholder will receive on the Settlement Date, if an Early Redemption Event has not occurred, for each Minimum Exercise Amount, the payment of the Cash Settlement Amount (if positive) determined as follows.

STANDARD LONG CERTIFICATES

CALCULATION METHOD IN THE CASE OF POSITIVE AND NEGATIVE PERFORMANCE OF THE UNDERLYING (BARRIER EVENT NOT OCCURRED)

The investor will receive an amount linked to a percentage of the Initial Reference Value of the Worst Of Underlying, equal to 100% (the "**Initial Percentage**").

CALCULATION METHOD IN THE CASE OF NEGATIVE PERFORMANCE OF THE UNDERLYING – (BARRIER EVENT OCCURRED)

The Barrier Event will occur if on the Valuation Date, the Final Reference Value is lower than the Barrier Level of the Worst Of Underlying. The Barrier Level is equal to 50% of the Initial Reference Value of the relevant Underlying (the "**Barrier Level**").

If a Barrier Event has occurred, the Cash Settlement Amount will be linked to the performance of the Worst Of Underlying (i.e. the investment in the Certificate is a direct investment in the Worst Of Underlying) and, therefore, will be exposed to the partial or total loss of the capital invested.

In relation to the Digital Amounts, the Memory Effect, the Early Redemption Amount and the Cash Settlement Amount, the following option applies:

Worst Of Feature

The Calculation Agent selects the Worst Of Underlying which is the underlying asset with the worst performance.

For the purposes of the above the following applies:

For the purposes of the determination of the Barrier Event the Reference Value will be the Final Reference Value.

<p>For the purposes of the determination of the Digital Event, the Memory Effect and the Early Redemption Event, the Reference Value will be registered, respectively, on the relevant Digital Valuation Period, the relevant Memory Valuation Period and the relevant Early Redemption Valuation Period and is equal to the reference price (in relation to the Unicredit S.p.A. Share) or the closing price (in relation to the Société Générale SA Share) of the Worst Of Underlying on such dates.</p> <p>The Initial Reference Value will be registered in relation to each Share on 25 July 2025 (the "Determination Date") and is equal to the reference price (in relation to the UniCredit S.p.A. Share) and the closing price (in relation to the Société Générale SA Share) of the relevant Share on such date.</p> <p>The Final Reference Value will be registered on 10 August 2028 (the "Valuation Date") and is equal to the reference price (in relation to the UniCredit S.p.A. Share) or the closing price (in relation to the Société Générale SA Share) of the Worst Of Underlying on such date.</p> <p>The Underlyings are UniCredit S.p.A. share (ISIN Code: IT0005239360, Bloomberg Code: UCG IM <Equity>), and the Société Générale SA share (ISIN Code: FR0000130809, Bloomberg Code: GLE FP <Equity>) (the "Underlyings", each an "Underlying" or the "Shares" and each a "Share").</p> <p>In respect of the Underlyings, certain historical information (including past performance thereof) may be found on major information providers, such as Bloomberg and Reuters. Information about UniCredit S.p.A. Share may be found on the website of the relevant issuer www.unicreditgroup.eu. Information about the Société Générale SA Share may be found on the website of the relevant issuer www.investors.societegenerale.com.</p>
<p>Seniority of the securities</p>
<p>The Certificates constitute direct, unsubordinated, unconditional and unsecured obligations of the Issuer and, unless provided otherwise by law, rank <i>pari passu</i> among themselves and (save for certain obligations required to be preferred by law) rank equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer from time to time outstanding.</p>
<p>Restrictions on the free transferability</p>
<p>The Securities will be freely transferable, subject to the offering and selling restrictions in the United States, the European Economic Area under the Prospectus Regulation and the laws of any jurisdiction in which the relevant Securities are offered or sold.</p>
<p>Where will the securities be traded?</p>
<p>Application will be made for the Securities to be admitted to trading on the Italian multilateral trading facility EuroTLX, organised and managed by Borsa Italiana S.p.A., which is not a regulated market for the purposes of Directive 2014/65/EU as amended, with effect from the Issue Date or a date around the Issue Date.</p> <p>After the Issue Date, application may be made to list the Securities on other stock exchanges or regulated markets or to admit to trading on other trading venues as the Issuer may decide.</p>
<p>What are the key risks that are specific to the securities?</p>
<p><i>The Certificates may not be a suitable investment for all investors</i></p> <p>Certificates are complex financial instruments. A potential investor should not invest in Certificates which are complex financial instruments unless it has the expertise (either alone or with the help of a financial adviser) to evaluate how the Certificates will perform under changing conditions, the resulting effects on the value of the Certificates and the impact this investment will have on the potential investor's overall investment portfolio.</p> <p><i>General risks and risks relating to the Underlyings</i></p> <p>The Securities involve a high degree of risk, which may include, among others, interest rate, foreign exchange, time value and political risks. Purchasers should be prepared to sustain a partial or total loss of the purchase price of their Securities. Fluctuations in the value of the relevant Underlying will affect the value of the Securities. Purchasers of Securities risk losing their entire investment or part of it if the value of the relevant underlying basis of reference does not move in the anticipated direction.</p> <p><i>Loss risk in relation to the investment</i></p> <p>Securityholders shall consider that, in relation to its investment, there is a risk of loss of the capital invested depending on the features of the Securities and on the performance of the Underlying. In particular, in the event a Barrier Event has occurred, a loss will occur in respect of the capital invested. If the Final Reference Value of the Underlying is equal to zero, the investor will suffer a total loss of the capital. Moreover, if prior to the exercise the investor decides to terminate the investment in the Certificates, the investor might be subject to the loss of the value of the Certificate and, therefore, might be subject to the total or partial loss of the investment.</p> <p><i>Risk related to the Digital Level</i></p> <p>In relation to the Securities, the Issuer has set, at its own discretion, the Digital Level. The higher the Digital Level is set in respect of the Initial Reference Value, the greater the possibility that the Digital Event will not occur and therefore that the relevant Digital Amount will not be paid.</p> <p><i>Risk related to the occurrence of an Early Redemption Event</i></p> <p>If an Early Redemption Event occurs, the Certificates will be redeemed earlier than the Exercise Date (and therefore terminated). In such case, the Securityholders will receive the Early Redemption Amount on the relevant Early Payment Date and no other amounts will be paid. The Early Redemption Amount is an amount predetermined by the Issuer which will not depend on the value of the relevant underlying asset and, therefore, the potential positive performance of such underlying asset will not be considered. In addition, in the event that the relevant underlying asset is registering a positive performance when an Early Redemption Event occurs, investors should consider that it may not be possible to reinvest in such underlying asset at the same conditions applied to the initial investment made in the Certificates.</p> <p><i>Impact of implicit fees on the Issue Price/Offer Price</i></p> <p>Investors should note that implicit fees (e.g. placement commissions/distribution commissions, structuring fees) may be a component of the Issue Price/Offer Price of the Securities, but such fees will not be taken into account for the purposes of determining the price of the relevant Securities in the secondary market. Investors should also take into consideration that if Securities are sold on the secondary market immediately following the offer period relating to such Securities, the implicit fees included in the Issue Price/Offer Price on initial subscription for such Securities will be deducted from the price at which such Securities may be sold in the secondary market.</p> <p><i>Possible illiquidity of the Securities in the secondary market</i></p> <p>It is not possible to predict the price at which Securities will trade in the secondary market or whether such market will be liquid or illiquid. The Issuer,</p>

or any of its Affiliates may, but is not obliged to, at any time purchase Securities at any price in the open market or by tender or private treaty. Any Securities so purchased may be held or resold or surrendered for cancellation. The Issuer or any of its Affiliates may, but is not obliged to, be a market-maker for an issue of Securities. Even if the Issuer or such other entity is a market-maker for an issue of Securities, the secondary market for such Securities may be limited. To the extent that an issue of Securities becomes illiquid, an investor may have to wait until the Exercise Date to realise value.

Section 4 – Key information on the offer of securities to the public

Under which conditions and timetable can I invest in this security?

General terms, conditions and expected timetable of the offer

Non-exempt Offer Jurisdiction(s): Italy

Maximum number of Securities offered: 20,000¹³

Offer Price: EUR 1,000.

Offer Period: from 14 July 2025 to and including 25 July 2025 by means of financial advisors authorised to make off-premises offers (*consulenti finanziari abilitati all'offerta fuori sede*) and by means of distance communication techniques only (the "**Offer Period**").

Conditions to which the offer is subject: The offer of the Securities is conditional on their issue and on the release by Borsa Italiana S.p.A., or by other trading venues, before the Issue Date, of the relevant authorisation to the admission to trading of the Securities.

Terms of the Offer: This issue of Securities is being offered in a Non-Exempt Offer in Italy pursuant to Articles 24 and 25 of the Prospectus Regulation. The Securities will be distributed by way of public placement and the placement activities will be carried out by the Manager.

The Issuer reserves the right, in its sole discretion, to close the Offer Period early, also in circumstances where purchases of Securities are not yet equal to the maximum amount offered of 20,000¹⁴ Securities. Notice of the early closure of the Offer Period will be given by the Issuer by publication on the websites of the Issuer and the Manager. The early closure of the Offer will become effective from the date specified in such notice. The Issuer reserves the right to postpone the closure of the Offer Period, in order to extend the Offer Period. Notice of the postponement of the closure of the Offer Period will be given by the Issuer by publication on the websites of the Issuer and the Manager. The Issuer reserves the right to increase, during the Offer Period, the maximum amount of Securities offered. The Issuer shall forthwith give notice of any such increase by publication of a notice on the websites of the Issuer and the Manager. The Issuer reserves the right, in its sole discretion, to revoke or withdraw the Offer and the issue of the Securities at any time prior to the Issue Date. Notice of revocation/withdrawal of the Offer will be given by publication of such notice on the websites of the Issuer and the Manager. Revocation/withdrawal of the Offer will be effective upon publication. Upon revocation/withdrawal of the Offer, all subscription applications will become void and of no effect, without further notice.

Minimum and maximum subscription amount: The Securities may be subscribed in a minimum lot of no. 1 Security and an integral number of Securities higher than such amount and being an integral multiple of 1. There is no maximum amount of application within the maximum number of Securities offered of 20,000¹⁵ Securities.

Expenses charged to the investor by the issuer or the offeror:

The Offer Price embeds:

- placement commissions payable to the Manager equal to 3.00 per cent. of the Issue Price in respect of Securities placed up to an aggregate of no. 6,000 Securities and in excess determined so that the aggregate commission will be no higher than 3.00 per cent of the Issue Price in respect of the aggregate Securities placed;
- costs in relation to the maintenance of the conditions of the Offer payable to the Issuer equal to 0.50 per cent. of the Issue Price; and
- other structuring costs payable to the Issuer equal to 0.05 per cent. of the Issue Price.

Notice of the definitive amount of the placement commissions will be published on the website of the Issuer within 5 (five) days following the Issue Date.

Who is the offeror?

Banca Generali S.p.A., with registered office at Via Machiavelli n. 4 - 34132 Trieste, Italy (the "**Manager**").

Reasons for the offer and estimated net amount of the proceeds

The Issuer intends to use the net proceeds from each issue of Certificates for general corporate purposes, including making a profit. A substantial portion of the proceeds may be used to hedge market risks with respect to the Certificates.

The net proceeds (resulting from subtracting the commissions and the costs referred to above from the aggregate Issue Price paid by the Securityholders) of the issue of the Securities will be equal to EUR 19,290,000¹⁶ (assuming placement commissions referred to above will be 3.00 per cent. of the Issue Price in respect of all Securities placed).

Indication of whether the offer is subject to an underwriting agreement on a firm commitment basis

The Issuer and the Manager have agreed under a placement agreement (the "**Placement Agreement**") that the Manager will place the Securities without a firm commitment. The Placement Agreement will be dated on or about 13 July 2025.

The Issuer will act as lead manager of the placement (*Responsabile del Collocamento*) as defined under article 93-bis of the Legislative Decree of 24 February 1998, n. 58, as subsequently amended, but will not act as manager and, accordingly, will not place any Securities to the public in Italy.

Indication of the most material conflicts of interest pertaining to the offer or the admission to trading.

The Issuer may enter into hedging arrangements with market counterparties in connection with the issue of the Securities in order to hedge its exposure. The Issuer will act as Calculation Agent under the Securities.

In addition, the Issuer may act as liquidity provider (as defined under the rules of the relevant market, as amended from time to time) in respect of the Securities.

Save as discussed above and save for any commission payable to the Manager and costs payable to the Issuer referred to above, so far as the Issuer is aware, no person involved in the issue of the Securities has an interest material to the Offer.

¹³ As amended from "10,000" to "20,000" on 23 July 2025.

¹⁴ As amended from "10,000" to "20,000" on 23 July 2025.
