### WHAT IS THIS PRODUCT?

TYPE	Bonus Investment Certificate
------	------------------------------

### OBJECTIVES

The objective of the product is to provide additional return (with cap) in exchange for the risk of loss of capital.

#### Underlying

CRÉDIT AGRICOLE SA Share (ISIN: FR0000045072).

#### How the return is determined

- **Settlement Amount at Expiry Date:** the amount at the Expiry Date will be determined as follows:
  - **If the Underlying Final Value is higher than or equal to the Barrier Level:** the investor will receive on the Settlement Date an amount equal to 108.45% of the Issue Price.
  - **If the Underlying Final Value is lower than the Barrier Level:** the investor will receive on the Settlement Date an amount linked to the Underlying Final Value.

#### Key dates and values

- Issue Price – EUR 100
- Issue Date – 4 November 2020
- Underlying Initial Value – EUR 7.376
- Underlying Final Value – equal to the closing price of the Underlying on the Final Valuation Date
- Barrier Level – 70% of the Underlying Initial Value
- Final Valuation Date – 2 November 2021
- Settlement Date – 4 November 2021
- Expiry Date – 4 November 2021
- Admission to listing / trading – SeDeX

#### Adjustments

The terms of the product provide that upon occurrence of certain adjustments events, the Issuer, acting in its capacity as calculation agent, will be entitled to take certain actions determinations or judgments acting in its sole discretion. All such actions, determinations or judgments may influence the amounts receivable under the certificates.

### INTENDED RETAIL INVESTOR

This investment is intended for investor who:

- has a good knowledge/experience of Markets and Financial Products;
- has an investment horizon consistent with the maturity date of the product;
- is willing to afford a loss up to the total invested amount;
- wants to have the possibility to disinvest the product before its maturity date, although without any guarantees to get back the invested amount.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

### SUMMARY RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Issuer is not able to pay you. The Issuer has classified this product as 2 out of 7, which is a low risk class. This classification results from two elements: an estimation of the market risk that rates the potential losses from future performance at a low level, and an estimation of the credit risk, according to which poor market conditions are very unlikely to impact the capacity of the Issuer to pay you. This product does not include any protection from future market performance so you could lose some or all of your investment. If the Issuer is not able to pay you what is owed, you could lose your entire investment.

### PERFORMANCE SCENARIOS

**Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.**

INVESTMENT EUR 10,000		
SCENARIOS		Expiry Date (Recommended holding period)
<b>Stress scenario</b>	<b>What you might get back after costs</b>	<b>EUR 1,971</b>
	Percentage return	-80.29%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	<b>EUR 9,891</b>
	Percentage return	-1.09%
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	<b>EUR 9,891</b>
	Percentage return	-1.09%
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	<b>EUR 9,891</b>
	Percentage return	-1.09%

This table shows the money you could get back until the Expiry Date, under different scenarios, assuming that you invest EUR 10,000. The scenarios shown illustrate how your investment could perform. Due to the recommended holding period shorter than 1 year, you can compare the values contained in this section and in the section "What are the costs?" only with the values concerning other products with the same recommended holding period. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where the Issuer is not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## WHAT HAPPENS IF INTESA SANPAOLO S.P.A. IS UNABLE TO PAY OUT?

This product is not protected by any investor compensation or guarantee scheme. The issuer's duties arising from the product are unsubordinated in respect of other liabilities of the issuer, with the exception of those liabilities which are preferred by any applicable law. As a consequence, in case of winding up of the issuer, the payment obligation of the issuer will rank pari passu with all other unsecured and unsubordinated payment obligations and the investor may lose part or the entire investment. In case of the issuer is considered as failing or likely to fail, this investment could be subject to the so-called "bail-in" which could implicate, pursuant to the law that envisages that any noteholder should not be charged for losses that are higher than those he should have been charged for if the bank would be wound up, the partial or total write-down of the product, the reduction to zero of the claims attached to such security or their conversion into shares. We advise you that any kind of payment could be delayed.

## WHAT ARE THE COSTS?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account the one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for the holding period. They include potential early exit penalties. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future.

### Cost over time

The Subject selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

INVESTMENT EUR 10,000	
Scenarios	If you cash in at the end of the recommended holding period
Total costs	EUR 68.40
Impact on return (RIY)	0.68%

### Composition of costs

The table below shows:

- the impact of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

THIS TABLE SHOWS THE IMPACT ON RETURN			
ONE-OFF COSTS	Entry costs	0.68%	The impact of the costs already included in the price.
	Exit costs	0.00%	Not applicable
ONGOING COSTS	Portfolio transaction costs	0.00%	Not applicable
	Other ongoing costs	0.00%	Not applicable
INCIDENTAL COSTS	Performance fees	0.00%	Not applicable
	Carried interests	0.00%	Not applicable

### HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

**Recommended holding period: until the Expiry Date**

The recommended holding period is selected to correspond with the maximum residual duration of the product. Please note that you may not be able to sell the product before the Expiry Date. If you are able to sell the investment at an earlier date, you may incur costs and may lose part or all of your Investment. The Issuer is under no obligation to make a secondary market in the product, but may choose to re-purchase the products early on a case-by-case basis. Further information is available upon request.
