WHAT IS THIS PRODUCT?

TYPE

Digital Quanto Investment Certificate

TERM

The Maturity Date of the product is 17.06.2024.

OBJECTIVES

The objective of the product is to provide additional return in exchange for the risk of loss of capital.

Underlying

S&P 500® Index (ISIN: US78378X1072).

How the return is determined

- **Reference Value of the Underlying:** on each Digital Valuation Period, the value of the Underlying will be equal to the arithmetic mean of the daily closing levels of the Underlying on each date of such period.
- **Settlement Amount at Expiry Date:** the amount at the Expiry Date will be determined as follows:
 - **If the Underlying Final Value is higher than or equal to the Barrier Level:** the investor will receive on the Settlement Date an amount equal to the Issue Price.
 - **If the Underlying Final Value is lower than the Barrier Level:** the investor will receive on the Settlement Date an amount linked to the Underlying Final Value.
- **Digital Amount:** the product provides for the payment of one or more Digital Amounts if the Reference Value of the Underlying on the relevant Digital Valuation Period is higher than or equal to 55% of the Underlying Initial Value. Otherwise, if the Reference Value of the Underlying on the relevant Digital Valuation Period is lower than 55% of the Underlying Initial Value, no Digital Amount will be paid on the relevant Digital Payment Date. The relevant Digital Amount will be paid on the relevant Digital Payment Date, together with all the Digital Amounts that have not been paid in the previous Digital Payment Dates (memory effect).

- is willing to afford a loss up to the total invested amount;
- wants to have the possibility to disinvest the product before its maturity date, although without any guarantees to get back the invested amount.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Issuer is not able to pay you. The Issuer has classified this product as 1 out of 7, which is the lowest risk class. This classification results from two elements: an estimation of the market risk that rates the potential losses from future performance at a very low level, and an estimation of the credit risk, according to which poor market conditions are very unlikely to impact the capacity of the Issuer to pay you. This product does not include any protection from future market performance so you could lose some or all of your investment. If the Issuer is not able to pay you what is owed, you could lose your entire investment.

PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period: Until the product matures.

Example Investment: EUR 10,000

| Scenarios | | If you exit at maturity (recommended holding period) |
|---|-------------------------------------|--|
| Minimum | | |
| There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress | What you might get back after costs | EUR 10,030 |
| | Percentage return | 0.30% |
| Unfavourable | What you might get back after costs | EUR 10,030 |
| | Percentage return | 0.30% |
| Moderate | What you might get back after costs | EUR 10,030 |
| | Percentage return | 0.30% |
| Favourable | What you might get back after costs | EUR 10,030 |
| | Percentage return | 0.30% |

The scenarios are shown in five hypotheses of market conditions at the recommended holding period. Due to the recommended holding period shorter than 1 year, you can compare the values contained in this section only with the values concerning other products with the same recommended holding period. The stress scenario shows what you might get back in extreme market circumstances. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

WHAT HAPPENS IF INTESA SANPAOLO S.P.A. IS UNABLE TO PAY OUT?

This product is not protected by any investor compensation or guarantee scheme. The Issuer’s duties arising from the product are unsubordinated in respect of other liabilities of the Issuer, with the exception of those liabilities which are preferred by any applicable law. As a consequence, in case of winding up of the Issuer, the payment obligation of the Issuer will rank pari passu with all other unsecured and unsubordinated payment obligations and the investor may lose part or the entire investment. In case of the Issuer is considered as failing or likely to fail, this investment could be subject to the so-called "bail-in" which could implicate, pursuant to the law that envisages that any noteholder should not be charged for losses that are higher than those he should had been charged for if the bank would be winded up, the partial or total write-down of the product, the reduction to zero of the claims attached to such security or their conversion into shares. We advise you that any kind of payment could be delayed.

WHAT ARE THE COSTS?

The Subject advising on or selling you this product may charge you other costs. If so, this Subject will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return);
- EUR 10,000 is invested.
